SUMMARY:

Experienced BFSI technology professional with 15+ years of expertise in Prime Brokerage, Listed Derivatives, Asset Management, and Equities processing. Proven track record of leading strategic projects, driving application and infrastructure transformations, and delivering high-quality solutions in complex financial environments. Skilled in stakeholder management, problem-solving, process optimization, and team leadership. Adept at managing multiple initiatives simultaneously while fostering innovation, collaboration, and continuous learning. Strong technical background spanning database development, ETL, cloud technologies, DevOps, automation, and production support.

TECHNICAL SKILLS:

Category	Skills
Experience	15+ Years (Since September 2010)
Domain Expertise	Prime Brokerage, Listed Derivatives, Asset Management, Equities
Databases	Oracle 12c, MS SQL Server
Clearing Platforms	Clearvision (FIS), COPPER (ION)
ETL Tools	Informatica PowerCenter 9.5, PL/SQL
Programming	Python, Shell Scripting, GraphQL, C, C++
Scheduling Tools	Control-M, AutoSys, UC4, Airflow
DevOps & CI/CD	Git, GitHub, Jenkins, XL Deploy, Helm, Harbor
Monitoring & Observability	Geneos, ELK Stack, Grafana
Containers & Cloud	Docker, Kubernetes, Microsoft Azure (AKS, Monitoring)
Other Tools	YAML, K9s, Draw.io, Markdown, Regex
Protocols	SSH, SFTP, SCP, FTP, HTTP(S), FIX

PROFESSIONAL HIGHLIGHTS:

- 🔗 15+ years of experience in application support, production management, and enterprise financial systems within the BFSI domain.
- 🔗 Experienced in Oracle PL/SQL development, database performance tuning, and query optimization.
- 🔗 Strong experience in ETL, data warehousing, and automation using Informatica, Python, and Shell scripting.
- 🔗 Successfully delivered major transformation initiatives, including Informatica, Control-M, Solaris-to-Linux, Clearvision, and cloud migration programs, along with FISCD BRM and enterprise monitoring implementations (Geneos, ELK).
- 🔗 Managed secure enterprise file transfer solutions using SFTP, SCP, SSH, and FTP protocols.
- 🔗 Recognized for driving operational excellence, improving system reliability, and delivering high-quality solutions in fast-paced environments.

KEY ACHIEVEMENTS:

- 🔗 Delivered infrastructure, host, and process consolidation initiatives resulting in cost savings of approximately **€ 1+ Mil.**
- 🔗 Led and contributed to key transformation programs that improved operational efficiency and platform stability.
- ❑ Recognized as an Outstanding Performer for multiple consecutive years at HCL Technologies and Société Générale.
